CODEDAY DEHRADUN

Bridging the Gap Between the tech community in Dehradun.

Code Day is a nonprofit organisation dedicated to promoting STEM education for high school and college students.

About

The organisation is headquartered in the USA and runs several programs for **55,000 students in 80+ cities around** the world, focusing on "Helping students use technology and creativity to work on meaningful problems and create a more innovative future"

Code Day events are a series of 12- or 24-hour programming competitions (hackathons) that run worldwide every few months, usually on weekends. It is hosted in many cities worldwide and is hosted at local tech companies or co-working spaces, universities and funded by local donations, sponsorships, etc.

Most students who attend Code Day have little or no coding experience before attending.

Goal of CodeDay:

To instil a spark in students and get them to continue to pursue Computer Science after they leave.

Why Dehradun?!

Dehradun has **talent — but it's scattered**. Students passionate about coding often find themselves learning in isolation, with little access to a like-minded community. **CodeDay Dehradun aims to change that**. By bringing together students from different schools and colleges. This event will **not only help new learners** take their first confident steps in tech but will **also spark a longer-term community** where peer learning thrives**.**
 It's time Dehradun have its own student-led tech ecosystem — and CodeDay is the ignition
We are so excited to bring this wonderful event to the tech enthusiast community of Dehradun!

Plan:

Date -   Tentative b/w Mid - End August
Venue -   Dehradun (TBD - University partner in progress)
Duration- 12-hour event (8 am to 8 pm)
Target Audience - High Schoolers and College Freshmen
Expected Footfall - 150+

The event will have:-

- Morning: Kickoff + Theme Reveal + Team Formation

- Midday: Workshops by mentors (optional GitHub Expert session?)

- Throughout: Coding + mentoring support

- End: Demos + Judging + Awards

- Extras: Mini-games, Food breaks, Peer networking.

What we need

To make CodeDay Dehradun truly impactful, we're seeking funding support for :-

- Meals & Refreshments
- Swag and certificates
- Workshop logistics
- Subscriptions to resources students might need during the event.

Respected Sir/Madam,

We're actively seeking support from GitHub Campus Experts and community partners to help us cover key aspects of the event — including meals, workshop logistics, platform access, and more. Your contribution, whether monetary or in-kind, will directly enhance the experience for aspiring student developers and ensure the event runs smoothly.

Even a partial contribution — such as funding for meals, mentoring support, or platform subscriptions — will make a meaningful difference. In return, your support will be prominently acknowledged on event materials, social media, and during the closing ceremony as a valued community partner.

Let's collaborate to make this event possible!

For any queries and concerns please reach out to me at: nehaa@codeday.org, +91 7088117924

Thank You!

Neha L.K. Arya
